

Introducing David Ellenberg, M.D.

David Ellenberg, M.D. is a retinal specialist who has made numerous contributions to the field of ophthalmology, including several nationally and internationally published papers. He has presented his work at many ophthalmology and retina conferences. He continues to lecture both nationally and internationally on surgical techniques and repair of complex vitreo-retinal disease. His expertise includes diabetic eye disease, macular degeneration, retinal detachment repair and many other medical and surgical diseases of the retina.

He is a member of the American Society of Retinal Specialists, American Academy of Ophthalmology and is certified by the American Board of Ophthalmology.

Dr. Ellenberg received his medical degree with honors from Wayne State University School of Medicine in Detroit. He was elected to the prestigious Alpha Omega Alpha medical honor society for his excellent academic record, compassionate and ethical medical care, and exemplary community service.

Dr. Ellenberg completed his ophthalmology training at The Krieger Eye Institute at Sinai Hospital in Baltimore where he also served as chief resident. After completing his residency, Dr. Ellenberg went on to complete a rigorous, two year Vitreoretinal Surgery and Medical Retina Fellowship at The Krieger Eye Institute.

Dr. Ellenberg is a community advocate, and has participated in a number of programs to promote community health and wellness. Dr. Ellenberg received a Community Service Award for his work with the Health Care for the Homeless, where he conducted eye exams and treatment for the homeless population of Baltimore. During his time at Sinai Hospital, he also participated in the local community service program by providing glaucoma and diabetic retinopathy screenings.

Above all else, Dr. Ellenberg understands the importance of providing compassionate patient care and will do everything he can to assure that his patients receive the best retina care possible.

In addition to treating retinal conditions such as macular degeneration and diabetic eye disease, Ophthalmic Specialists of Michigan's medical staff include cataract, glaucoma and oculoplastic specialists. They offer cataract surgery, eyelid surgery, LASIK procedures, and glaucoma management. The Ophthalmic Specialists of Michigan have three offices in Dearborn, Livonia and Madison Heights, in addition to the Livonia Outpatient Surgery Center which is adjacent to the Livonia office.

Dearborn Office: 24800 Michigan Avenue • Ph: (313) 561-7255

Livonia Office: 33400 W. Six Mile Road • Ph: (734) 421-2020

Madison Heights Office: 301 W. 13 Mile Road • Ph: (248) 268-1079
